

AIIM Happy Hour - SharePoint Smackdown!

Our next topic is sure to be lively as opinions of SharePoint vary widely among end-users *and* vendors.

Personally, I've been challenged to understand how SharePoint aligns with the traditional ECM vendors, but I am sure someone will put me in my place for saying so!

Our new open forum will be a great place to debate the pro's and con's, so we look forward to seeing (and hearing) you on Thursday, August 12th from 3:30pm to 5:30pm at Rock Bottom in La Jolla. As always, if you have the time and desire, here is a link to the [AIIM Industry Watch report on SharePoint](#).
